That New Electric Line.

They are doing as much talking about the new electric line that is to be built between the cities of Jamesville and Merrill than at times it seems almost as if there was some intention of building it. Various reports have been circulated concerning whether the new line will go through Grand Rapids or not. The people over at Stevens Point are dead certain that it is not going to be built to this city, but they are the only ones that say so. All other reports from headquarters are to the effect that the line will be built to this city.

Of course it would not cut much figure with the people of this city whether the line were built here or not, as our railroad connections are in the now first class, and there is no indication that they will be any worse. However, the average railroad is built for the purpose of getting business, and the amount of business there is to get determines whether the road is to be built or not, and it is rather doubtful whether those who propose building the road would have out of a city of seven thousand or more people, and one of the best towns in the line, when they could get to it by building a very few miles of road. The people of Grand Rapids are not wasting any sleep over the new line, altho we will be very glad to do anything we can for them at any time.

Had a Close Call.

Ernest Krumpke, a fat about eighteen years of age, who is employed at the Consolidated mill on Machine No. 1 as fourth hand had a narrow escape from death while engaged in turning the felt on one of the rolls at 3:30 Saturday afternoon. Young Krumpke went down in the pit below with A. Schneider to turn the felt and in some manner was caught and carried head first around a six inch roll thru a space of about five inches between the rolls. Lee Payne the backender, stopped the machine as soon as he heard the lad scream, and when picked up was found to be bleeding from his mouth and ears. Dr. Waters was at once summoned and the boy was taken to his home where he is getting along nicely at present, and it is expected he will not suffer any serious consequences from the accident.

Those who are acquainted with the workings of these rolls say that it is almost a miracle that he escaped with his life, and had the accident happened several days previous when the felt had not been stretched so much by wear, he certainly would never have escaped alive.

Will Have a Government Inspector.

The Reftham Packing Company have made arrangements for having a government inspector stationed in this city so that all meat slaughtered at their plant will be inspected by a government man. As the matter is handled now it is not possible for the company to ship any of their products out of the state, but after they have an inspector they will be on the same footing with other concerns of this sort.

There are times when it would be of considerable advantage to them to be able to ship out of the state, and under the new order of things there will be a chance for the company to extend its business very materially. The concern has been turning out about a ton of sausage a day of late, beside the numerous other products that they handle. The business has continued to increase ever since it was first established and the indications are that it will continue to do so.

Farmer Hurt in a Runaway.

Charles Honke of the town of Grant, Portage county, was quite badly hurt in this city on Saturday in a runaway, he being thrown from his rig and was knocked senseless and had a bad gash cut in his forehead. Mr. Honke was crossing the bridge at the time the accident happened, when his horses, which were hitched to a farm wagon, took fright, and started to run. The tongue of the wagon dropped down and stopped the wagon, throwing the owner to the floor of the bridge where his head came in contact with one of the iron stanchions, cutting a bad gash over his eye.

He was picked up and carried to Dr. Loewe's office, where his wound was dressed and he eventually recovered consciousness. It is not thought that Mr. Honke will suffer any permanent injury.

Single corn seed for all crops, as compared to 25 per cent. for the year single seed plants this percentage may be still further increased.

Scald the Water Utensils. Utensils and troughs for food and water should be frequently scalded with boiling water, afterwards being thoroughly cleaned. Though a little extra work may be required, this cleaning up is a good preventive of many diseases and may save work and time later.

M. A. Bogger has constructed the foundation under his store building so that he will be able to veneer it with brick when he gets around to it, which will probably be next season. It is also his intention to change the construction so as to have a flat roof on the building, and an addition will be built on the back. The other buildings are being rebuilt with stone fronts and they will have steel cornices so that when finished will present a very neat appearance. The upstairs of the old buildings is being fixed up for tenement purposes.

Mrs. Lawrence E. Nash entertained a party of friends on Monday afternoon in honor of Mr. and Mrs. E. J. Whitney, who are soon to leave for Port Arthur, Ont., to make their home. The afternoon was very pleasantly spent by those in attendance.

May Make Concrete Tile.

W. H. Carey, manager of the Carey Concrete company, has been looking into the matter of manufacturing concrete tile during the past few weeks and he has at last come to the conclusion that it would be a good thing for his company to engage in right here in Grand Rapids.

The concrete tile are used largely in construction work to take the place of the heavy faced brick, being generally used for the same purposes. In the cities where large buildings are being erected large numbers of tile are used, both in walls and partitions, and as a general thing it is necessary to ship them for a considerable distance, so that the freight is quite an item in the matter, and the consequence would be that the manufacturer here would be able to sell his tile at a lower price than the one who has to ship them. Mr. Carey, after going up the situation, decided that his company would have to install about ten machines in order to take care of the business that would develop in this locality, and it is his aim to increase somewhat in order to cover the new deal. Should the company go into the matter here it will mean the employment of several more men and will probably in time develop into quite a business.

Tomah Highs Are Beaten.

The Tomah high school football team came to this city on Saturday and played a game with the high school football team of this city and were beaten by a score of 17 to 0. It was a Grand Rapids game from start to finish and there was no time when the visitors stood any kind of a show of winning, or even a thing in point.

Our boys beat the visitors at every kind of a game they tried, and once one of the home team got around the end he was sure of a good gain before he could be stopped.

Will Build New Depot.

A number of the local officials of the Chicago, Milwaukee and St. Paul railway were in the city this morning looking over things about the depot, and they left the impression, altho it was not given out officially, that it is the intention of the company to build the new depot here at once, work to commence on the structure at once.

Among the officials who were in the party were D. C. Chenevix, assistant general superintendent at Milwaukee, Wis., W. J. Boyle, agent at Milwaukee, A. A. Wolf, division carpenter, A. L. Morrison, superintendent of the valley division, H. H. Ober, trainmaster and E. Calahan, roadmaster, Wausau.

Cases Were Adjourned.

Three young men who had been removing Fred Norton were arrested last week, and taken before Justice Pennington, where they were examined and held their cases at court until next Friday.

Fred Norton, the knifed man, is one of our citizens and a small building erected on the Pennington property, facing on Second street in which he is living and conducting a shoe shining shop. Some of the boys seem to feel a bit of a grudge against him, and some barrels of hay standing in front of the building were set on fire. The building was not damaged, but another attempt is reported to have been made on the same matter later on.

Mr. Norton is trying to make an honest living, and he is not in the habit of interfering with other people, and there is no reason why he should be removed any more than other people.

GOVERNMENT HOMESTEADS.

One and a half million acres of farming and grazing land will be opened for settlement in the Chippewa River and Standing Rock Indian Reservations, October 10th. Registration to be made at Aberdeen, and at Pierre, the capital of the State.

First day through train via direct lines to Perryman, Aberdeen via The Chicago & North Western Ry.

For full information regarding rates, with pamphlets telling how to secure a homestead of 160 acres from the government, apply to any ticket agent. The North Western Line, Oct. 10-13.

Warren-Walcott.

Miss Flora Warren and H. A. Walcott, both of this city, were married on Sunday afternoon at the home of the bride's parents, Rev. W. A. Newing of the Methodist church performing the ceremony.

The groom is employed in the plant of the Kandy Manufacturing company and the bride is a most estimable young lady who has made her home in this city for some time past. They will make their home in this city and the Tribune extends congratulations.

Leased the Chose House.

Mr. and Mrs. Ed Fald have leased the Chose House from Robert, Mrs. Donald, taking possession on Saturday. Mr. and Mrs. Fald intend to run a first class boarding house, and in doubt will get their share of the patronage.

Peter McManley returned on Tuesday night from Oshkosh, having been present at the operation of his sister, Rose, by Dr. Dykstra. Mr. McManley reports that she went thru the operation nicely and was getting along nicely when he left.

Mr. E. G. Fritz, Oshkosh, N. Y., writes: "My little girl was greatly benefited by taking Foley's Kidney and Bladder Pills. I think it is the best remedy for constipation and liver trouble." Foley's Kidney and Bladder Pills is mild, pleasant and effective, and cures habitual constipation. John E. Daly and Johnson & Hill Co.

Sales Company Meets.

The members of the Cranberry Sales company held a meeting in this city on Saturday last at which there was a large number of the growers in this vicinity in attendance. The meeting was held at the council rooms on the west side, and among those in attendance was A. T. Chenevix, the company's sales agent.

One of the things that was done at the meeting was to establish a new brand to be known as the "Holly" brand of berries. This brand will include all the small berries that are sold in this city, and the berries ranging in size from 9-12, to 13-14, which is one-third second of an inch larger than the brand heretofore known as the pie berry. This matter of grading is one that has been under consideration by the members of the company and growers in general in this section for a number of years past, and considerable work and thought has been expended on it, and it is considered new that an improvement has been made over the old system. Whether it is or not can probably be told at the end of the season after the crop has been disposed of and the kicks registered.

Reports were made by the different members in attendance and those showed that the crop this year will amount to about thirty thousand barrels, or about one-half of what it was estimated to be before the frost of September 1st.

While the Wisconsin crop is short this year, reports from other sections of the country are to the effect that the crop will be normal in those sections, and the consequence will be that Wisconsin growers will not get a price in proportion to the shortness of this crop. They expect to begin shipping about the 10th inst. and the market will probably be about the six dollar mark.

It is thought that the Wisconsin berries will be of excellent quality this year, but they will not be as large as they have been some other seasons.

Evening School to Open Oct. 12

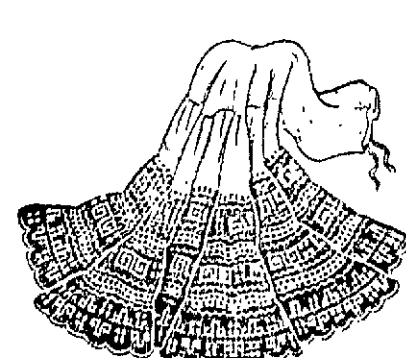

The evening session at the First Free College will open on Tuesday evening, Oct. 12. Classes will be formed in shorthand, bookkeeping, penmanship, arithmetic, spelling, etc. and such other subjects as students may desire.

Special classes will be arranged for those who may wish to prepare for civil service examination. Those evening sessions are designed to accommodate those who are employed during the day, that wish to prepare for something better than their present positions. Tuesday, Wednesday and Friday evenings from 7 to 9. Terms very reasonable. For particular inquiry of the principal, E. L. Hayward.

Band Concert Thursday Evening.

The last band concert of the season will be given on Thursday evening in the band stand on the west side. The concert would have been given on Tuesday evening had it not been for the council meeting on that evening.

Had a Close Call.

The business has continued to increase ever since it was first established and the indications are that it will continue to do so.

Farmer Hurt in a Runaway.

Charles Henke of the town of Grant, Portage county, was quite badly hurt in this city on Saturday in a runaway, he being thrown from his rig and was knocked senseless and had a bad gash cut in his forehead.

Mr. Henke was crossing the bridge at the time the accident happened. When his horses, which were hitched to a farm wagon, took fright, and started to run. The tongue of the wagon dropped down and stopped the floor, throwing the owner to the ground, the bridge where his head came in contact with one of the iron stanchions, cutting a bad gash over his eye.

He was picked up and carried to Dr. Looze's office, where his wound was dressed and he eventually recovered consciousness. It is not thought that Mr. Henke will suffer any permanent injury.

Mrs. Lawrence E. Nash entertained a party of friends on Monday afternoon in honor of Mr. and Mrs. E. J. Whittey, who are soon to leave for Port Arthur, Ont., to make their home. The afternoon was very pleasantly spent by those in attendance.

Mrs. A. D. Hill was pleasantly surprised by the members of the first ward high club at her home on Monday evening. A very enjoyable evening was spent by the guests.

Herman Hasler, who has been section foreman of the Wisconsin Central road here for a number of years, has resigned his position and accepted a position with the Northwestern Ry.

May Make Concrete Tile.

W. H. Carey, manager of the Carey Concrete company, has been looking into the matter of manufacturing concrete tile during the past few weeks and he has about come to the conclusion that it would be a good thing for his company to engage in right here in Grand Rapids.

The concrete tile are used largely in construction work to take the place of the manufactured from clay, being generally used for the same purposes. In the cities where large numbers of tile are used, both in walls and partitions, and as a general thing it is necessary to ship them for a considerable distance, so that the freight is quite an item in the matter, and the consequence would be that the manufactured here would be used to the exclusion of outside stock on account of the freight that could be saved to points in this vicinity.

The tile are made by a patented machine which is not sold, but rented, and when a man rents a certain number of the machines he also gets a certain amount of territory with it, so that he does not come into competition with other manufacturers in his vicinity.

Mr. Carey, after sizing up the situation, decided that his company would have to install about four machines in order to take care of the business that would develop in this locality, and if this is done it is entirely probable that the capital is increased somewhat in order to cover the new deal. Should the company go into the matter here it will mean the employment of several more men and will probably in time develop into quite a business.

Tomah Highs Are Beaten.

The Tomah high school football team came to this city on Saturday and played a game with the high school football team of this city and were beaten by a score of 17 to 0. It was a Grand Rapids game from start to finish and there was no time when the visitors stood any kind of a show of winning, or even getting a point.

Our boys beat the visitors at every kind of a game they tried, and once one of the home team got around the end he was sure of a good gain before he could be stopped.

Will Build New Depot.

A number of the head officials of the Chicago, Milwaukee and St. Paul railway were in the city this morning looking over things about the depot, and they left the impression, altho it was not given out officially, that it is the intention of the company to build the new depot here at once, work to commence on the structure at once.

Among the officials who were in the party were D. C. Chennery, assistant general superintendent of Milwaukee, Col. W. J. Boyle, agent at Milwaukee, A. A. Wolf, division carpenter, A. E. Morrison, superintendent of the valley division, H. H. Ober, trainmaster and E. Calahan, roadmaster, Wausau.

Cases Were Adjudged.

Three young men who had been annoying Fred Norton were arrested last week and taken before Justice Pomauville, where they waived examination and had their cases adjourned until next Friday.

Fred recently, thru the kindness of some of our citizens, had a small building erected on the Pomauville property facing on Second street in which he is living and conducting a shoe shining shop. Some of the boys seem to feel called upon to annoy him as much as possible and in order to do so, some barrels of hay standing near the building were set on fire. The building was not damaged, and another attempt is reported to have been made in the same manner later on.

Mr. Norton is trying to make an honest living, and he is not in the habit of interfering with other people, and there is no reason why he should be annoyed any more than other people.

GOVERNMENT HOMESTEADS.

One and a half million acres of farming and grazing land will be opened for settlement in the Chippewa River and St. Lawrence River Reservations, October 15th to 23rd. Registration to be made at Aberdeen, and at Pierre, the capital of the State.

For full information regarding rates, with pamphlets telling how to secure a homestead of 160 acres from the Government, apply to any ticket agent, The North Western Line—27, 10-13.

Warren-Walcott.

Miss Flora Warren and H. A. Walcott, both of this city, were married on Sunday afternoon at the home of the bride's parents, Rev. W. A. Newing of the Methodist church performing the ceremony.

The groom is employed in the plant of the Kandy Manufacturing company and the bride is a most estimable young lady who has made her home in this city for some time past. They will make their home in this city and the Tribune extends congratulations.

Leased the Chose House.

Mr. and Mrs. Ed Fahl have leased the Chose House from Robt. McDonald, taking possession on Saturday. Mr. and Mrs. Fahl intend to run a first class boarding house, and no doubt will get their share of the patronage.

Peter McCamley returned on Tuesday night from Oshkosh, having been present at the operation of his sister, Rose, by Dr. Oviatt. Mr. McCamley reports that she went thru the operation nicely and was getting along nicely when he left.

Mr. F. G. Fritz, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is mild, pleasant and effective, and cures habitual constipation. John E. Daly and Johnson & Hill Co.

Sales Company Meets.

The members of the Cranberry Sales company held a meeting in this city on Saturday last at which there was a large number of the growers in this vicinity in attendance. The meeting was held at the council rooms on the west side, and among those in attendance was A. T. Chaney, the company's sales agent.

One of the things that was done at the meeting was to establish a new brand to be known as the "Holly" brand of berries. This brand will include all the small berries that are sold and will include the berries ranging in size from 9-32, to 13-32, which is one-third second of an inch larger than the brand heretofore known as the "Holly" brand. This matter of grading is one that has been under consideration by the members of the company and growers in general in this section for a number of years past, and considerable work and thought has been expended on it, and it is considered now that an improvement has been made over the old system. Whether it is or not can probably be told at the end of the season after the crop has been disposed of and the ticks registered.

Reports were made by the different members in attendance and those showed that the crop this year will amount to about thirty thousand barrels, or about one-half of what it was estimated to be before the frost of September 1st.

While the Wisconsin crop is short this year, reports from other sections of the country are to the effect that the crop will be normal in those sections, and the consequence will be that Wisconsin growers will not get a price in proportion to the shortness of this crop. They expect to begin shipping about the 10th instant and the market will probably be around the six dollar mark.

It is thought that the Wisconsin berries will be of excellent quality this year, but they will not be as large as they have been some other seasons.

Evening School to Open Oct. 12

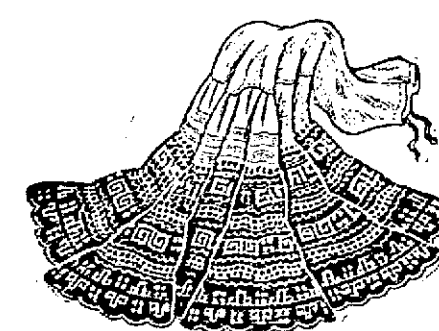

The evening session at the Business College will open on Tuesday evening, Oct. 12. Classes will be formed in shorthand, bookkeeping, penmanship, arithmetic, spelling, etc., and such other subjects as students may desire.

Special classes will be arranged for those who wish to prepare for civil service examination. These evening classes are designed to accommodate those who are employed during the day that wish to prepare for something better than their present positions. Tuesday, Wednesday and Friday evenings from 7 to 9. Terms very reasonable. For particulars inquire of the principal, E. L. Hayward.

Band Concert Thursday Evening.

The last band concert of the season will be given on Thursday evening in the band stand on the west side. The concert would have been given on Tuesday evening had it not been for the council meeting on that evening.

Heineman Merc. Co.

GRAND RAPIDS, WIS.

F. L. Steib has his new drug store about ready for occupancy and will probably move into the building the coming week. The work there has been delayed considerably on account of not receiving the material that was ordered on time. When straightened around in the new place Mr. Steib will have one of the best locations in town.

Mrs. E. B. Garrison and Miss Della Jones left on Tuesday evening for Chicago where Mrs. Garrison will receive treatment for her health.

Mrs. Mervin Vieu of Green Bay arrived in the city last week to spend the winter with her parents, Mr. and Mrs. Louis Fritz.

F. Heise returned on Tuesday from a two weeks' visit with his brother-in-law, Chas. Peltz at Windom, Minn. Mr. Heise reports a most enjoyable visit and says the farmers in that part of Minnesota all have big crops of corn and potatoes this year. Chas. A. Dixon leaves tonight for Grey Eagle, Minn., to be gone several days on business.

Mrs. A. D. Hill was pleasantly surprised by the members of the first ward high club at her home on Monday evening. A very enjoyable evening was spent by the guests. Herman Hasler, who has been section foreman of the Wisconsin Central road here for a number of years, has resigned his position and accepted a position with the Northwestern Ry.

DAWN of the COTTON CENTURY

BY DANIEL J. SULLY
COPYRIGHT BY INTERNATIONAL
MAGAZINE COMPANY

I ALL of us have heard the cotton story. But in the past, it has been told in a hazy, romantic way. It has been told in a way that has made it seem like a fairy tale. It has been told in a way that has made it seem like a dream. It has been told in a way that has made it seem like a legend. It has been told in a way that has made it seem like a myth. It has been told in a way that has made it seem like a story of the past. It has been told in a way that has made it seem like a story of the future. It has been told in a way that has made it seem like a story of the present. It has been told in a way that has made it seem like a story of the world. It has been told in a way that has made it seem like a story of the human race. It has been told in a way that has made it seem like a story of the dawn of a new century.

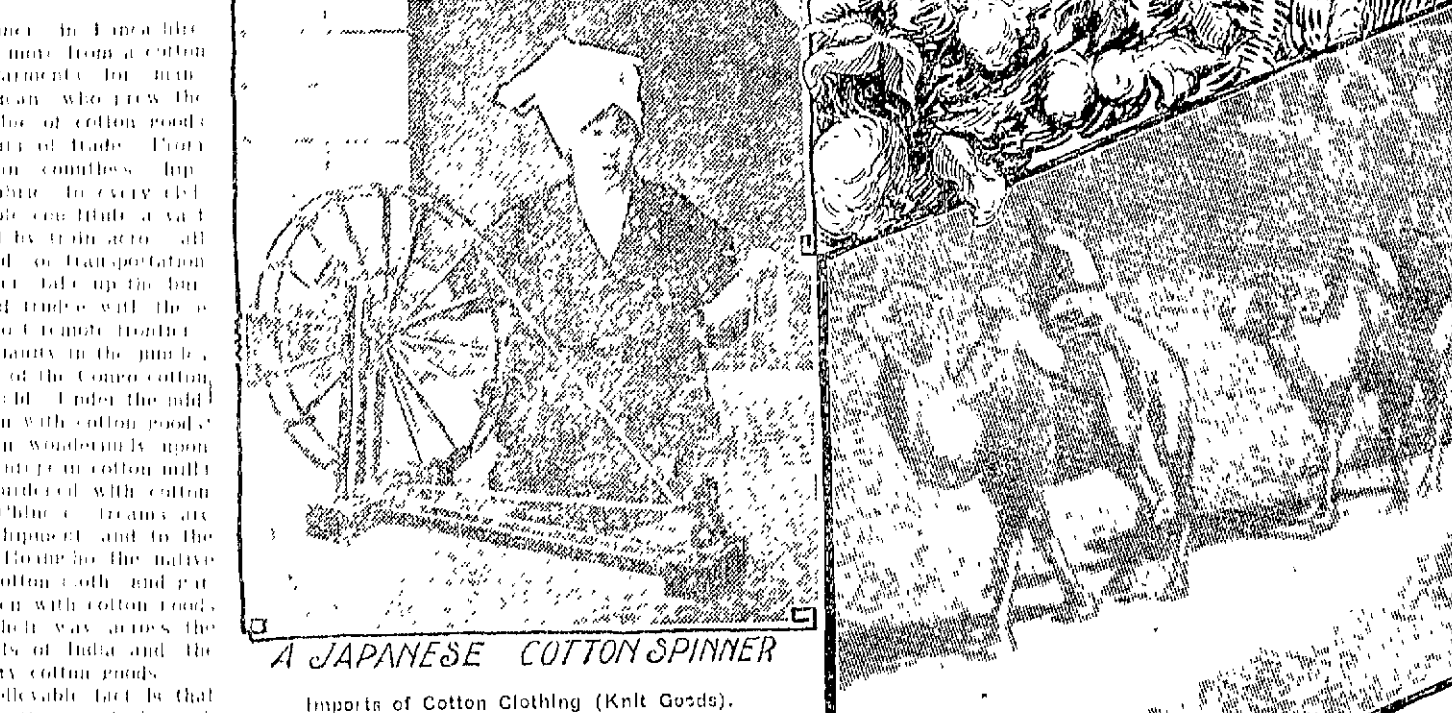

The American people have begun to realize the cotton story. They have begun to realize that cotton is not just a plant, but a power. They have begun to realize that cotton is not just a commodity, but a civilization. They have begun to realize that cotton is not just a story, but a reality. They have begun to realize that cotton is not just a dream, but a fact. They have begun to realize that cotton is not just a legend, but a truth. They have begun to realize that cotton is not just a myth, but a life. They have begun to realize that cotton is not just a story of the past, but a story of the future. They have begun to realize that cotton is not just a story of the present, but a story of the world. They have begun to realize that cotton is not just a story of the human race, but a story of the dawn of a new century.

An analysis of this trade in cotton goods reveals that of our exports more than \$6,000,000 worth consists of unbleached cloths, while of our imports more than \$22,000,000 worth consists of finer fabrics, including our broderies, laces and curtains. Altogether, the figures show that while we exported in the 10 months ending with October, 1908, \$22,000,000 worth of the output of our cotton mills, the nations sold to us almost 100 per cent. more than we sold to them.

It is a grotesque and almost unbelievable item in the commerce of this age that a resourceful nation like America, the producer of the world's cotton, should buy back two dollars' worth of cotton goods for every dollar's worth it ships abroad.

When our competitors buy from us eight or nine million bales of unmanufactured cotton, it is a mark of their enterprise, not of ours. The greater part of our foreign trade is the result of suction from abroad, not of production from America. The need of the nations is for our raw cotton and they send their ships to get it. If we were agriculturists and raised cotton we could sell it.

manner, to jeweled whips and diamond pins presented by owners. A certain Newmarket stable apprentice who has ridden several winners this year never rides without holding in his mouth a piece of straw, about three inches long, which he found while in the stable one day on the back of the first horse he was asked to ride in a race. For some unaccountable reason he regarded the piece of straw as an omen of good luck, more particularly after he won that first race.

Queen Bess, Tight Lacer. Whirlstone was first used by Queen Bess. James after her compelled all men and women courtiers to have worn whips. Terence, 160 B. C. speaks of "town ladies who saddle their backs and straighten their waists to make them well shaped." JOKE TURNED ON FREDERICK How the King of Prussia Was Outwitted by the Cleverness of a Courtier.

It is related of Frederick the Second, king of Prussia, that he one day made a present of a golden snuff box to one of his courtiers. When the latter opened the lid he found the picture of an ass painted upon the under side of it. Though he scarcely

relished the king's joke, he said nothing at the time, but as soon as he quitted the king's presence he sent one of his valets with the snuff box to the city, and gave instructions that the picture of the ass was to be painted out, and a portrait of the king put in its place.

A few days later a distinguished company dined with the king. The count was one of the guests, and after

a time he produced his snuff box and pretended to examine it with the air of a man who was proud to have received such a gift from the king. The latter, wishing to enjoy a little amusement at the count's expense, mentioned to the duchess of Brunswick that he had made a present of the snuff box to the count on the preceding day. She desired to inspect it, and when the box was handed to her she opened the lid, and looking inside, cried in raptures: "Fertoot! The likeness is charming. It is one of the

best portraits of you that I have ever seen."

She handed the box to the person next to her, who was equally charmed with the likeness. From one to another the box was passed, and all testified to the excellent resemblance which the picture bore to the king. The king, thinking that the ass' head was still to be seen on the snuff box, felt exceedingly embarrassed; but at last the snuff box, having made the tour of the table, came to his hands, and the first glance showed

him how cleverly the count had anticipated his little joke and turned it against him.

When a young lady was summoned at Crowe, England, recently, by a constable for riding her cycle without a light, the superintendent of the police said he was surprised that such a smart-looking young officer should have summoned such a handsome young lady and declined to press for a conviction. The chairman said the policeman's action did not speak much for his gallantry.

Mr. and Mrs. Ole Olsson and daughters, Lottie and Anna, departed on Tuesday night for Oakland, Cal., where they will make their future home. Mr. and Mrs. Olsson have been residents of Grand Rapids and Port Edwards for many years and their many friends wish them success in their future home.

John Hilderman, Hans Meyer, Pet and Curtis Grotan, Wm. Young and Hannaford Glosuit returned on Saturday from Duck Lake, Michigan where they spent a week camping. They report a good time, but say the fishing was not what it ought to have been as it rained most of all of the time they were up there.

Miss Lottie Stearns, chairman of the state library commission, will be in this city this evening to give a lecture at the Methodist church on the subject of libraries. An effort is being made by the members of the Federated Clubs to secure an appropriation for a Carnegie library here, but there is some opposition to the plan, which is not as it should be. It would seem as if the citizens should be willing to give two or three thousand dollars a year toward a library if Mr. Carnegie will give twenty or thirty thousand. Those interested in the matter should hear what Miss Stearns has to say on the subject.

INTO THE PRIMITIVE

BY ROBERT ARTHUR BENNET
SYNOPSIS

CHAPTER I
By Evening She Had Her Tree-Cave in a Habitable Condition

It was a warm, sunny day in the heart of the tropics. The air was thick with the scent of flowers and the sound of birds. A young woman, with dark hair and a determined expression, was working in a cave. She had just finished a large, comfortable bed made of leaves and branches. She looked at her work with a sense of pride and satisfaction.

She had found the cave by accident, while searching for food. It was a simple, natural structure, but she had made it into a home. She had gathered leaves and branches from the forest and used them to create a cozy nest. She had also found some small animals, which she had tamed and kept as pets.

She had been living in the cave for some time now. She had learned to hunt and gather food, and she had become very skilled at it. She had also learned to make tools and weapons, and she had become very strong and brave. She had become a true primitive.

THE QUAKER DOCTOR

—This remarkable physician, Wisconsin's leading specialist in chronic diseases of men and women, nervous disorders of children and skin diseases, who will be at the Witter House, Grand Rapids, Monday and Tuesday, Oct. 11 and 12, says: "No matter what your sickness is, no matter what disappointments you have met with at institutes, Sanatoriums or elsewhere, do not lose hope or give up; call and see me; and have your mind set at rest. If your case is curable, I can and will cure you, and if not I will give you sound advice as will prolong your life although it costs you nothing. Here are a few letters from people who thought they never could be cured, but first I wish to say that on no account are letters to be published except by request of the writer:

"Seven months ago I was discharged from the City Hospital of Boston as incurable, having been under treatment there many months for paralysis of the left side, quite unable to move other limbs. My mother found me under your care and felt instant relief, and have continued to improve day by day, and now, after six months' treatment, I am able to say that I am well without a stick of crutch, and walk around the house and garden. Many people have written and called upon me because they did not believe I could in my case possibly, but every word of this is true, and I shall be pleased to answer any inquiries.

Mrs. Christina Rodman, Medford, Wis.

I am getting along fine, and have had no pain in my side since I took your treatment a week. I can work like a horse. —Henry Dalmier, Oostburg.

Am doing fine under your treatment, nothing ever did me so much good. —Ernest Schneider, Monmouth Falls.

I wish to state that you removed a tape worm, head and all in one piece, from my daughter, Lucine, in just one hour and a half, and that many other doctors had tried to remove it and failed. Mrs. Mary Moore, Palmyra.

My son is perfectly well. He has no more pain in his stomach and no more headaches. Your treatment was indeed wonderful and I cannot express my thanks. —Mrs. John Lechner, Marxville.

Am feeling fine and getting along all right. I have derived more benefit from your treatment than from all the medicines I ever used. —William Gibson, Ontario.

Since taking your treatment I am feeling better than I have for ten years. —Mrs. T. Kozelka, Prairie du Chien.

My headaches are all gone. I feel just fine, and thank you very much for your skill and care.

Sincerely yours,
Miss Minnie Pringer, Two Rivers

Leland had not yet had since the first treatment, and thousands of worms came away. He sleeps well and eats like a thrasher. —Mrs. E. B. Lohren, Hartford.

I want to tell you and everybody that my rheumatism I never thought could be cured, has all gone, and I am very happy and thankful to you.

Very truly,
Mrs. H. Isham, Medford

Am better in every way, my awful headaches of ten years have left me since the first few days of your treatment, it is now nearly a year and I have not once had a headache, for which I shall always be most grateful to you. —Mrs. C. G. Smith, Rhineclander.

All pain in my stomach has gone, I sleep well all night, and am ready for breakfast as soon as I get up. I am indeed thankful to you. —John Taper, Durand.

Am improving very fast and profoundly thankful to you for it. —Mrs. Anna Mass, Chokase.

Am improving rapidly under your treatment and feeling fine. In every way. —Mrs. B. Holguin, Stanley.

Not an ache or a pain since I took your treatment, and old I feel so much better in every way. God bless you for what you have done for me, as all I can say. —Mrs. A. Jones, Rhineclander.

Have had a pain in my heart or stomach since the first week I followed your treatment and am feeling stronger each day. Unlike this letter by all means it is but poor compensation for all you have done. —George Stelling, Rib Lake.

My little girl is feeling splendid, she has gained nine pounds and has not felt so well for two years. —Mrs. E. M. Bangs, Phillips.

Not one pain since the first week of your treatment and my back is strong enough for a hard day's work now. —Philip Gunkill, Marshfield.

Some Large Cranberries.
When Matt Carey came in from the Gwynn marsh, where he had been running the store for the Johnson & Hill Company, he brought in with him a quart jar of the famous Prolifer cranberries. Mr. Carey took the trouble to pick out a quart of the largest berries and they have proven quite a curiosity to everybody that has seen them. The berries are almost perfectly round and as large as small plums, and well colored, and people who are not familiar with cranberries can hardly believe that they belong to that class of fruit.

Bank Robbers Re-Arrested.
Two of the four men who attempted to rob the bank at Wild Rose on Oct. 7, 1905, are again in the Wausau county jail. When their time was about to expire in the Leavenworth prison, where they were sent for four years for robbing the Wild Rose postoffice, John V. Doran, cashier of the Wild Rose bank, filed a complaint against them for the hand they took in attempting to rob the bank of which he is cashier. The result was that the sheriff of Wausau county went to Leavenworth and as soon as the men had passed outside of the prison walls there they were again taken into custody. When arraigned before a Wausau justice they waived an examination and expressed a desire to be sentenced as soon as possible. They will be taken before Judge Webb.

Later:—They were subsequently given one year each by Judge Webb.

McIntee-Herrick.
Robert McIntee and Miss Agnes Herrick were married in this city on Wednesday last at the home of the groom's grandmother, Mrs. Margaret Skeel, Roy, Fred Staff of the Congregational church performing the ceremony. They were accompanied by Dr. Carl Handelin and Miss Abbie Skeel. Mr. and Mrs. McIntee will make their home at Bancroft, where the groom owns a farm.

Let This Be Your Home-Store

YOU like to buy in a cheery, good-natured "home" place—where you feel welcome—where there's genuine courtesy—real interest in serving you.

This is that kind of a store—and there's no "put-on-ness" about it.

We like the business we are in, and show it—our salesmen, too, are a happy, lively, contented lot.

We are all enthusiastic here about the way we're able to serve you—right now especially in our new

showing of fall and winter good things from

The House of Kuppenheimer

It's just such a display of clothes as you'd expect to find in your "home-store."

And you'll get no end of pleasure and satisfaction in going through the splendid models with a salesman who knows their fine points to help you make your choice.

Buy now—or later. You're just as welcome in any case to see what we have to show you.

We desire you to inspect our fall showing of suits in various materials cut in the newest models for fall and winter. Our stock of blacks range in prices from **\$10 to \$28**. Navy blue in plain and two-toned which are particularly striking prices, **\$18, \$20, \$22 and \$25**.

Our new models in overcoats are worth seeing if you desire to wear the best appearing garments in the city today. We lay particular stress on our convertible overcoat or the two styles in one, the AUTO and REGENT OVERCOAT simply made by the different way you button it up; this is indeed a marvel; it saves buying two coats. VISIT OUR STORE.

The height of the neck is not because no one is getting far enough up to ends. But it is more than 50 miles, face of the earth, surface of the sea.

THE QUAKER DOCTOR

—This remarkable physician, Wisconsin's leading specialist in chronic diseases of men and women, nervous disorders of children and skin diseases, who will be at the Witter House, Grand Rapids, Monday and Tuesday, Oct. 11 and 12, says: "No matter what your sickness may be, no matter what others have told you, no matter what disappointments you have met with at institutes, Sanatoriums or elsewhere, do not lose hope or give up; call and see me and have your mind set at rest. If your case is curable, I can and will cure you, and if not I will give you such advice as will prolong your life although it costs you nothing. Here are a few letters from people who thought they never could be cured. But first I wish to say that on no account are letters published except by request of the writer:

"Seven months ago I was discharged from the City Hospital of Boston as incurable, having been under treatment there many months for paralysis of the left side, quite unable to move either limb. My mother, friends and my own care and efforts failed to give me any relief, and I was about to give up. But first I wish to say that on no account are letters published except by request of the writer:

"I am getting along fine, and have had no pain in my side since I took your treatment a week. I can work like a horse.—Henry Palmer, Oostburg.

"Am doing fine under your treatment, nothing ever did me so much good.—Ernest Schroeder, Monmouth Falls.

"I wish to state that you removed a tape worm, head and all in one piece, from my daughter, Lucina, in just one hour and a half, and that many other doctors had tried to remove it and failed.—Mrs. Mary Moore, Palmyra.

"My son is perfectly well. He has no more pain in his stomach and no more headaches. Your treatment was indeed wonderful and I cannot express any thanks.—Mrs. John Lechner, Marquette.

"Am feeling fine and getting along all right. I have derived more benefit from your treatment than from all the medicines I ever used.—William Gibson, Ontario.

"Since taking your treatment I am feeling better than I have for ten years.—Mrs. T. Kozelka, Prairie du Chien.

"My headaches are all gone. I feel just fine, and am getting stronger every day, and thank you very much for your skill and care.

Sincerely yours,
Miss Minnie Pringer, Two Rivers
Leland has not wet the bed since the first treatment, and thousands of worms came away. He sleeps well and eats like a thrasher.—Mrs. E. E. Lohren, Hartford.

I want to tell you and everybody that my rheumatism I never thought could be cured, has all gone, and I am very happy and thankful to you.
Very truly,
Mrs. H. Isham, Medford

An letter in every way, my awful headaches of ten years have left me since the first few days of your treatment, it is now nearly a year and I have not once had a headache, for which I shall always be most grateful to you.—Mrs. G. G. Smith, Rhineclander.

All pain in my stomach has gone, I sleep well all night, and am ready for breakfast as soon as I get up. I am indeed thankful to you.—John Tipton, Dorchester.

Am improving very fast and am profoundly thankful to you for it.—Mrs. Anna Mues, Chisholm.

Am improving rapidly under your treatment and feeling fine in every way.—Mrs. B. Hodgins, Stanley.

Not an ache or a pain since I took your treatment, and oh! I feel so much better in every way. God bless you for what you have done for me. I am all I can say.—Mrs. A. James, Rhineclander.

Have not had a pain in my heart or stomach since the first week I followed your treatment and am feeling stronger each day. Publish this letter by all means if it has been of compensation to all you have done.—George Stelling, Rib Lake.

My little girl is feeling splendid, she has gained nine pounds and has not felt so well for two years.—Mrs. P. M. Range, Phillips.

Not one pain since the first week of your treatment and my back is strong enough for a hard day's work now.—Philip Conkili, Marshfield.
